Of the Working Men's Association, adopted at a meeting of the same, held in the old Court House in the City of Cleveland, Oct 21st,

WHEREAR, the Declaration of Independence proclaims as self-evident truths, that all men are created equal, that they are endowed by their Creator with certain inherent and inalienable rights; that among these are life, libarrenate rights, that among these are life, ab-erty and the pursuit of happiness; that to se-cure these rights, Governments are instituted among men, deriving their just powers from the consent of the governed; that whenever any orm of government becomes destructive of hese ends, it is the right of the people to alter or to abolish it, and to institute new govern-ments, laying its foundation on such principles and organizing its powers in such form as to them shall seem most likely to effect their safety and happiness; and,

WHEREAS, the scientific, technical, commer-ial and industrial progress of manahad in all its developing features, since the authors of this declaration, has produced on one side, a minor ity which possesses everything, and on the other side, an immense majority which possesses nothing, living from hand to mouth, and seeing themselves without any posi-tive prospect of ever attaining a material independency, thus conducing sooner or later to a terrible catastrophe between rich and poor; and

WHEREAS, labor under the present social or-der will always depend on the fluctuations of an artificial law of demand and supply, and the working man, instead of receiving and enjoying the whole fruit of his labor, will always be a victim of the ascendency of capital, and be reduced to a minimum of wages, begetting a disastrous competition amongst working men them-selves, which is almost equal to lawful murder;

litical parties hitherto have proved insufficient and clusive for the immediate or even gradual emancipation and improvement of the social condition of working men, and the poor at large, therefore leaving the constitutions of the country such that on the outbreak of any crisis or calamity, millions of hands are thrown out of work, and are saved from starvation by charity, and alms, both of which are insulting

Convention of Colored Citizens We publish the stirring appeal of the colored citizens of Ohio, issued by their State Central un on the 23d, 24th and 25th of November next -The Convention will no doubt be a large one, mercus, and in the main intelligent, industrious and prosperous, but they have among them maguide for the present, at least.

The Committee of the colored citizens and tax-payers of the State enumerate some of the disabilities and hardships they now laber und at. and it is no marvel that they should take .. eps Mr. Henshaw saw no impropriety of its being there, and did not apprehend, ever having occasion to use force. To the Colored Citizens of the State of Ohio: CITIZENS:-We call on you to meet at Cinnext, and there deliberate on the best means to secure your rights in Ohio, and promote the interest of your ruce in the United States. Citizens, you are denied the Elective Franchise; you are excluded from the Jury Box; you are not admitted into the Poor Houses; you are shut out from the Institutions for the Insane Blind, Deaf and Dumb. You cannot join the The Constitution prohibits you and limits the members to "white male citizens." Black male itizens are embargoed and supposed by the privileged class, in a case of emergency, to be totally unfit to uphold the pillar of State. This is a fatal stab. It strikes at your loyalty and love of country, which never was questioned until within these latter days, by the new lights who have spring up like grasshoppers in the community. In the war for Independence, col-ored men bore an honorable part, and many lost their lives, and others were honorably discharged from the service. At the great battle at New Orienns colored men maintained their post in the ranks of the army with distinguished valor, and Andrew Jackson declared that it is "a mis- For the Fall of tase. Alm, all the LATEST STYLES of abea policy" to deny them the use of arms And yet such men cannot form a part of the Militia of the State! Shame! You cannot, Citizens, be a Clerk, Councilman, Policeman, Member of the Board of Public Works, Commissioner, Attorney, Judge, Auditor, Treasurer, Secretary of State, or Governor. You can hold no political office of trust, or honor, or profit, under the State Government. You are aliens in the eye of the law, inferior and degraded, and entitled to no more protection and encourage-ment than a Sandwich Islander, or a convict of Van Dieman's Land. The Legislature of Ohio assembles, and although it is supported in part by your money, you have no representative that body.

Hence, your interest is totally neglected, and your wants not provided for. Is this American! Is it in barmony with free and enlight-ened institutions! Citizens, these restrictions signed to establish injustice, promote inequali-ty, and secure chains for one sixth of the entire population. Indeed, it requires no argument to prove that a State has no right to oppress and degrade a portion of her innocent subjects. We swear allegiance to the State on condition that she will protect and make wholesome hws to govern us, and whenever she fails to do it, opinion. Jefferson declared the King of Great Britain a tyrant, and unfit to rule a free people, because he gave his assent to a law taxing the Colonies without their consent. Putrick Henry, in the House of Burgesses in Virginia, was no less bitter, and reminded his Majesry that he might meet the fate of Charles the First. Citizens, it is certain, then, that all partial le-gis stion is wrong, impolitic and unwise. You cannot legislate for one class in a commun to the injury of another, without doing a seri wrong to the individual as well as the State ation, and the dark forebodings of the futur
